

Silver-Streak[®] & red-riter[™]

FINE LINE METAL MARKERS

FEATURES

- Available in the original flat size and the NEW round size
- Ideal for doing metal layout and fabrication work
- Marks on any metal surface
- Marks won't rub off like soapstone
- More visible thru filter plates
- Marks are resistant to torch flames
- Won't shatter if dropped
- Each holder includes a handy pocket clip

BENEFITS

- Superior to soapstone in markability and durability
- Marks on oily, wet or rusty metals
- Durable holders prevent stick breakage
- The new round size replaces old-fashioned silver wooden pencils — no sharpening
- Will not scratch or abrade metal surfaces

TYPICAL APPLICATIONS

- Layout or shearing, cutting or welding paths on steel plate
- red riter is ideal for marking on aluminum and stainless steel
- Marking metal parts for finishing applications
- Marking cutoffs

*Packaged for easy display
and consumer convenience!*
