

Stylotube PN200D

Compact automated dot marker

Markal® Stylotube PN200D is an automated metal-ball tip marker designed for vertical, overhead or horizontal dot marking applications on assembly lines. The space-saving design allows for easier installation in automated processes and the pressurized hands-free marking system allows for full use of the replacement RS.2000 refill cartridges.

- Fully automated marking system allows for continuous paint delivery on vertical, overhead, or horizontal surfaces
- Space-saving design allows for easier installation in automated systems
- Requires use of compressed air supply 3 to 4 PSI (0.2 to .3 BAR)
- Pneumatic device improves productivity over manual marking products
- Pressurized system ensures full use of replacement paint cartridges
- Refillable holder keep hands and clothing clean
- Includes T-shaped tips for applications that include line marking
- 3 mm and 6 mm steel ball tips for dot marking on rough or smooth surfaces
- Designed for use only with Markal RS.2000 replacement cartridges
- Made in EU

Industry Uses:

- Quality Control
- Automotive and other transportation
- Industrial manufacturing and assembly
- Tire industry

Surface Uses:

- Metal
- Plastic
- Rubber and tires
- Cloth and fabric (textiles)

Part No.
96602
